

### **Dead and Breakfast Synopsis**

Mr and Mrs HAVEN are a lovely old couple who run a sleepy bed and breakfast.

They are the kindest people in the world but on a night of the full moon they transform into werewolves and are compelled by their nature to eat raw flesh.

A guest on the night of the full moon survives the night at the B&B and the HAVENS must hold him there until the next full moon when their animal selves will overcome their human scruples.
